WE11 LIS Biological Characterization Report .pdf

Hi Jeannie,

Would you add Grace Musumeci, Stephanie Lamster and Nikolaus Wirth to the ELIS SEIS mailing list when you have a chance. They are Region 2's NEPA staff/management who I will be working with from here on out.

Thanks.

Pat

Hi Grace,

Attached is the Biological Characterization for the ELIS SEIS that has now been sent out to the cooperating agencies for review and the schedule for SEIS activities for the next few months. Please let me know if your branch will be reviewing, if they will be participating in the upcoming meetings and their availability. I will have Jeannie Brochi (R1) add you, Stephanie and Nick to the ELIS mailing list.

Please let me know if you want to sit down and talk about the ELIS SEIS process thus far.

Thanks.

Pat

Hello Cooperating Agency Representatives (CARs),

I hope that you are enjoying the warm weather and that your summer is off to a good start.

As discussed in April, EPA would like to host meetings via webinar this summer and would like to hear back from you regarding your availability (see below).

In addition, please find several documents (some are for review as outlined below, the deadline for the review is July 10th(details listed below).

COOPERATING AGENCY MEETING:

1) EPA would like to host a meeting in July to discuss the Phys O report.

Please, send your availability the week of July 15th and 22nd. Weeks of August 11th and 18th.

The Phys O report will be sent to agencies for review the week of July 7th. EPA would like to host a webinar sometime during the week of July 15th to have the contractor

Present findings from the report and to give folks an opportunity to ask questions.

2) EPA would like to host a meeting in August to discuss next steps.

REVIEW:

1) Biological Characterization report for Priority areas – comments **due NLT July 10th** please review this report for fatal flaws (although the report you will review is marked final, please review for fatal flaws).

2) Phys O report and modeling data – this is the largest study and is currently being review by the contract team, this report will be sent for review the week of July 7th. Reminder: this study included a modeling component (which will be discussed and presented at the Cooperating agency meeting).

LIS DMMP REPORT:

Report was uploaded to EPA website and link sent by Mike Keegan, please let me know if you did not get the email.

Thank you, please call or email if you have any questions, Jeannie
